

## THE CHICAGO STRIKERS.

A RESTLESS FEELING IN THE LUMBER DISTRICTS.

The Fight Between the Trades Unions and the Knights of Labor--General Notes.

CHICAGO, Ill., May 17.—Leading Bohemian residents of this city held a meeting yesterday and expressed their indignation that the feeling of the recent riots should be attributed to the city of their nationality. Adolph Kratz, member of the Board of Education, emphasized the fact that one of the policemen shot during the riot, August Neeler, was a Bohemian; that no Bohemian was arrested on account of the riot, and that not half a dozen Bohemians took part in the Easter parade, while the American flag was dragged in the dust and the red flag unfurled. Other speeches were made in which the sentiment was general that it was the duty of every American citizen and of every alien who enjoys the hospitality of this free land to cheerfully obey its laws.

A RESTLESS SPIRIT pervades the southwest lumber region this morning. At 7 o'clock Tuesday-second and the intersecting streets were lined with great crowds of men and boys. The decided stand taken at the meetings by the strikers Saturday and yesterday and the promulgation of their determination to stay out and compel the bosses to capitulate had incensed the police, and they were on hand in force early in the morning prepared to preserve order and quell any demonstration of violence that might occur. The men, with an extra squad of officers, patrolled the street and prevented any large gathering, dispersing the men and compelling them to keep moving. Several of the firms started up with small gangs of men, and no trouble of any nature occurred during the first working hours of the day. The Adams & Westlake Manufacturing Company and the Union Brass Manufacturing Company resumed operations this morning. About one-half of the regular force, the superintendent said, applied for work and were told to go to their benches. No trouble of any kind was experienced. Those men who are out to stay did not attempt any further move with the men who wished to go to work. A tour of the city revealed the fact that not to exceed one-third of the men who were at work Saturday appeared at the yards this morning, having been intimidated by the rumor that the yards would be raided by men from the stock-yards and other industries.

THE TAILORS AND TAILORING employed by the wholesale clothing houses, and, in fact, all the persons engaged in the making of ready-made clothing, numbering 30,000, returned to work this morning on the basis of nine hours' work and ten hours' pay. At a meeting of the United Laborers' Assembly yesterday, it was resolved to send a copy of the appeal sent to retail merchants, to all the priests and clergymen in the city and ask their aid in closing stores on Sunday. July 18 was chosen as the date when the early closing movement will come into force.

About 100 members of the Grocery and Butcher Clerks' Association met yesterday.

Reports were received from 850 employers who have consented to close at 7 p.m., except Saturdays, and at 10 a.m. Sunday. Some trouble was found in the cases where a saloon was run in connection with the store, as one could not well be open without the other. The assembly now has 350 active members. Many of the large retail establishments have anticipated the demand for shorter hours and are closing at 5 p.m. daily, in addition to granting a Saturday half holiday, and in many instances granting employees a two weeks' summer vacation.

THE FIGHT BETWEEN THE TRADES UNIONS AND LABOR. BUFFALO, N. Y., May 17.—The cigar makers seem to be leading the attack of the trades unions on the Knights of Labor, and at the conference, which begins in Philadelphia on the 18th instant, a general plan will be mapped out to be acted on at the approaching meeting in Cleveland. A. Strauss, president of the Cigar-Makers' International Union, has written a strong editorial for the May number of the Cigar-Makers' Official Journal from which the following extracts are taken: The Journal of United Labor of last month, the official organ of the Knights of Labor, contains an article relating to the central committee of cigar makers adopted by the Executive Board of the Knights of Labor. In looking over the scale of prices we notice that the Knights of Labor are entitled to work from 20 to 50 per cent below the current price as enforced by the local unions under the jurisdiction of the International Union. The attempt to cut down the wages of the cigar-makers under cover of "labor reform" we feel constrained to denounce as a piece of "scab" business of the lowest order. We do not consider it out of place to give the names and occupations of the men who have assumed control over the cigar trade, so that we may convince these interlopers who have not the slightest knowledge of the cigar trade. Their names are: T. V. Powderly, national; Frederick Turner, grocer and landlord; John W. Barry, warehouseman and retail tea dealer; W. H. Bailey, miner; T. V. Barry, ex-mechanic. The attempt of a few men to control and regulate all industries has proved to be a ridiculous farce. It also proves that there is something rotten in the management of the organization known as the Knights of Labor. Should the special session of the Knights of Labor, to be held in Cleveland on May 25th, fail to remedy these criminal blunders we will denounce them as the champions of cheap labor and the advocates of low wages in fine, as traitors to the labor cause.

"Labor's View of the Situation." New York, May 17.—"Labor's View of the Situation" was the subject of the Rev. Dr. Heber Newton's sermon yesterday in All Soul's Protestant Episcopal Church. Social anarchism, he said, may be precipitated upon the whole country at any time by a great strike. It is high time for capitalists to consider the laboring man's view of the situation. "To you of my friends," he continued, "who are calling me a speculator, I speak. Stop and think what the workingmen think before both you and the workingman become dogged in your opinion. You are on the side of labor, for the dictatorial and tyrannical power that labor organizations are using. But do not become blinded by your indignation. Remember that the laboring man is a great and noble creature. It is your duty to recognize the laboring man as an individual principle, and not as a mere principle."

EX-PRESIDENT ARTHUR Constantly Growing Worse From His Disease.

NEW YORK, May 17.—The Times this morning says: "Ex-President Arthur's condition has been steadily growing worse during the past week, but he has not relapsed as far as to have lost all the ground gained during his unexpected rally of about ten days ago. Some of the more enthusiastic of his friends believed that the turn for the better had come, but the steady decline since then has dampened their enthusiasm, and there are few, if any, who now believe that the ex-President will ever again leave his house alive. Sudden and unexpected rallies, followed by gradual but steady declines, are peculiarities of Mr. Arthur's disease well known to physicians, and watched by them with grave fears. The danger is ever present that the poisoned blood of the patient will surmount the brain, and when that has happened the victim of Bright's disease feels the last of his suffering. Mr. Arthur bears his confinement patiently and bravely, and, knowing as he does, the hopelessness of his case, makes the labor of love of his attendants as light as possible by his gentleness and unvarying cheerfulness."

There Are a Few Druggists Who care more to make a large profit on a worthless article than to wait for the results that ultimately result from honest dealing. These are the men who, when they see a chance to make a profit, will recommend some cheap and trashy substitute or imitation, saying it is "just as good" as the real thing. They will tell you that the real thing is too expensive and all the while they are making a profit on their cheap and trashy substitute. They will tell you that the real thing is too expensive and all the while they are making a profit on their cheap and trashy substitute. They will tell you that the real thing is too expensive and all the while they are making a profit on their cheap and trashy substitute.

These are the men who, when they see a chance to make a profit, will recommend some cheap and trashy substitute or imitation, saying it is "just as good" as the real thing. They will tell you that the real thing is too expensive and all the while they are making a profit on their cheap and trashy substitute. They will tell you that the real thing is too expensive and all the while they are making a profit on their cheap and trashy substitute. They will tell you that the real thing is too expensive and all the while they are making a profit on their cheap and trashy substitute.

## CATHOLIC UNIVERSITY.

SUBSCRIPTIONS TO THE FUND POURING IN.

All the Plans Complete, and Money in Hand to Commence Building.

WASHINGTON, D. C., May 19.—The heartiness and enthusiasm with which the project of erecting in Washington a Roman Catholic university has been read by Catholics in all sections of the country is sufficient evidence that it will become a solid and concrete fact before very long. Subscriptions still continue to pour in. Already the sum in hand is sufficient to warrant the commencement of building. The major portion of the \$1,000,000 which was to be collected for the cost and endowment of the university, is in hand, and more is still coming. The committee held a meeting last week in Baltimore, and selected three of the ten plans for the building which had been sent in by some of the principal architects of the country. It is probable that the best features of these three designs will be incorporated into one when a final decision is made. Ground will not be broken for the erection of the building until next spring, but when operations are once commenced they will be pushed forward with rapidity.

The new institution is to be a university and not a college. It will be founded on a similar system to that in vogue at Oxford and Cambridge. It is not proposed to give a professional education in the university, but the course will be so modeled that none but post graduates and those who have received their professional education will be eligible for admission. It will be the finishing course. In this way it will not interfere in any way with the existing colleges. At first instruction will be confined to the three branches of learning—philosophy, theology and physiology—and will afterward include law and medicine. Dr. Chappell says that "One of the principal reasons that Washington was chosen as the site of the university was because the students could here mix with the superior minds of the many valuable scientists, philosophers and lecturers, etc., which are to be found here." The question of the internal management of the university was the subject of much discussion at the last meeting of the committee, some members favoring the election of a rector and others proposing that it be finally decided by the university, which was accordingly done. It is believed that Archbishop Spaulding, of Illinois, was the man so honored. The management of the interior of the university will be interested to the members of a religious society, with whom arrangements are now being made.

Imposing Religious Ceremonial at Savannah. SAVANNAH, Ga., May 19.—The Rev. Thos. A. Becker, formerly bishop of Savannah, Del. was installed bishop of the Roman Catholic See of Savannah, made vacant by the elevation of Bishop Gross to the archbishopric of Oregon a year ago, with imposing ceremonies at the Cathedral of Our Lady of Perpetual Help yesterday. Bishops Northrop of Charleston, S. C. and Moore of St. Augustine, Fla., were guests of honor. The installation was the most imposing religious ceremonial ever witnessed in Savannah.

ASHLAND, MISS. The Prohibition Election Declared Null and Void.

ASHLAND, Miss., May 12.—The committee appointed to investigate our election matter here on the whisky question, reported illegality in the petition on which the election was ordered. The report was adopted. The election, consequently, was declared null and void.

A CARD To all who are suffering from the errors and indiscretions of youth nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send all addressed envelopes to the Rev. J. J. T. Brinton, Station 10, New York.

AYER'S Sugar-Coated PILLS. If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Bright, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to regulate my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by jaundice, and was so dangerously ill that I feared I should die. I took Ayer's Pills, and soon regained my customary strength and vigor.—John C. Patten, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with indigestion, and distressing pains in the bowels.

The Bowels. By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss.

My wife and little girl were taken with dysentery a few days ago, and at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Esling, Richmond, Va.

Ayer's Pills, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Dealers in Medicine.

BROKEN DOWN RITERS RE- stored to perfect health Mrs. A. Green, corner Vance and Walnut streets, Memphis, Tenn., writes: "I was broken down by a severe cold, and was unable to do any work. I took Ayer's Pills, and in a short time I was restored to perfect health. I feel as well as ever, and am able to do my work."—S. C. Darden, Darden, Miss.

B. J. SEMMES &amp; CO.

DISTILLERS, Office and Store, 297 Main Street, MEMPHIS, TENNESSEE.

U. S. Bonded Distillery and Warehouse, Green Brier, 5th District, Tenn.
